

Caring for Carcinoid Foundation

E-Update: Number 1, 2005

Research update

Dr. George Demetri, member of our Board of Scientific Advisors, was featured in a CBS News report titled, "Seeking Magic Bullets." This report explains how the new genetic research paradigm--the basis of our research map--is leading to breakthrough targeted therapies for cancer. [Learn more](#)

Foundation update

The Caring for Carcinoid Foundation launched its website one month ago. Already, the website has attracted more than 500 unique visitors. We appreciate this enthusiastic support for our mission to discover a cure for carcinoid. [Visit website](#)

Donor update

We greatly appreciate the generous contributions made in memory of Shirley Warnica. Her family and friends have shown tremendous support for the Caring for Carcinoid Foundation. We honor Shirley in our Sunflower Circle, comprised of individuals who have generated \$1,000 or more in donations from personal, honorary, or memorial giving. [See Sunflower Circle](#)

Join the fight!

[Donate now](#)

Please donate if you support our mission to discover a cure for carcinoid. With your generous contributions, we award research grants to leading scientists who will unlock the genetic causes of carcinoid and develop targeted therapies.

100% of your donation will directly support carcinoid research because all expenses are covered separately. Your donation is tax-deductible because we are a 501(c)(3) nonprofit.
