

Caring for Carcinoid Foundation

E-Update: Number 6, 2005

TV news report

The Caring for Carcinoid Foundation was featured in a primetime evening news report on New England Cable News (NECN). NECN is the country's largest regional news network, serving more than 3 million homes. This TV news report, "Cambridge couple finds hope for a cure", was introduced as follows:

"Nancy O'Hagan was diagnosed with metastatic carcinoid cancer at the age of 29. She and her husband, Patrick, founded the Caring for Carcinoid Foundation to support research in hopes of finding a cure. NECN's Anya Huneke has more on this remarkable Cambridge, Massachusetts couple."

In the TV news report, [Nancy O'Hagan](#) and her husband, [Patrick](#), are interviewed by Anya Huneke, NECN's award-winning Health and Science reporter. The story brings attention to carcinoid cancer and the mission of the Caring for Carcinoid Foundation to discover a cure.

Pan-Mass Challenge

The Caring for Carcinoid Foundation has entered a cycling team in the Pan-Mass Challenge on Saturday, Aug. 4 to Sunday, Aug. 5, 2006.

The Pan-Mass Challenge is the nation's most successful bike-a-thon. It has raised over \$145 million for life-saving cancer research, including \$23 million last year. Riders of all abilities, including novice riders, participate in this major charitable event.

[Anne Doyle](#), a member of our Board of Directors and 5-year rider in the Pan-Mass Challenge, is Team Captain. Anne's dad, [Hugh Doyle](#), died of carcinoid two months ago, and now she is reaching out to riders and virtual riders to join our Caring for Carcinoid Foundation Team. The registration dates are Jan. 17 for riders and Feb. 1 for virtual riders.

Unite to "Cure Carcinoid Now"!

Caring for Carcinoid Foundation

To discover a cure for carcinoid, it will take a team effort by the entire carcinoid community. Our funded scientists are already making tremendous progress toward unlocking the genetic causes of carcinoid and developing targeted, curative therapies.

We will expand and accelerate this research effort by awarding new research grants in 2006. Please support the ["Cure Carcinoid Now"](#) campaign.
